

FY 2014-2015 Hospital Preparedness Program (HPP)
 Spring Healthcare Coalition Conference Minutes
 Region 7
 Shriner's Hospital for Children, Shreveport
 March 24, 2015
 1:30 – 3:00 P.M.

Participants: (x indicates present)

| Hospitals | EMS |
|--------------------------------------------------------------------------------|---------------------------------------------------|
| X Bienville Medical Center: Jane Huckabee, RN | Advanced EMS, Inc: |
| Brentwood Hospital | Balentine Ambulance Service |
| Christus Coushatta Health Care Center | Bossier City Fire Dept |
| Christus Highland Medical Center | Bossier Parish EMS |
| Christus Schumpert Medical Center (Christus Schumpert Health Systems/St. Mary) | Caddo Parish Fire District #1 |
| Cornerstone Hospital of Bossier City | Caddo Parish Fire District #6 |
| X DeSoto Regional Health System: Shane Goodman | Caddo Parish Fire Protection District #4 |
| Dubuis Hospital of Shreveport | Caddo Parish Fire Protection District #3 |
| Homer Memorial Hospital | Caddo Parish Fire Protection District #5 |
| LifeCare Hospital – Shreveport | Christus Schumpert Critical Care Ground Transport |
| Louisiana Extended Care Hospital of Natchitoches | DeSoto Parish EMS: |
| X Minden Medical Center: Ashley Frye, RN | Medical Transportation Services: Casey |
| Natchitoches Parish Hospital | Med-Trans Corp. d/b/a Life Air Rescue: |
| X North Caddo Medical Center: George Alamond | Natchitoches Parish Hospital Ambulance Service: |
| X Overton Brooks VA Medical Center: Rhonda Woolridge | North Caddo Medical Center Ambulance Service: |
| Pathway Rehabilitation Hospital of Bossier | George Alamond |
| Physicians Behavioral Hospital | Promise Specialty Hospital Transportation Dept.: |
| Promise Hospital of Louisiana – Bossier City Campus | Red River EMS |
| Promise Hospital of Louisiana – Shreveport | Ruston Fire Department EMS |
| Red River Behavioral Center, LLC | X Shreveport Fire Dept. EMS: Nathan Tabor |
| X Sabine Medical Center: Catherine Trequilla | X Willis Knighton Ground Transport: Susan Cash |
| X Shriners Hospital for Children: Shelly Horton | |
| Specialists Hospital of Shreveport | |
| Specialty Rehabilitation Hospital in Coushatta: | |
| X Springhill Medical Center: Randy Morris | |
| Willis-Knighton Bossier Health Center | |
| X Willis-Knighton Medical Center: Susan Cash | |
| Willis-Knighton Pierremont Health Center: Clint Sanders | |
| X Willis-Knighton South & Center for Women's Health: Alana Moore | |
| X University Health Shreveport: Don Chagnard | |

| Other Partners, Guests | |
|------------------------|-----------------------------------------------|
| X | Barksdale AFB: Nima Alinejad, Holly Rollins |
| X | BOHSEP: Ian Snellgrove |
| X | Caddo Parish Coroner's Office: Joseph Johnson |
| X | VHA OEM: Patrick Card |
| X | Louisiana Poison Center: Knox Andress |

Facilitators:

Knox Andress, Region 7 Designated Regional Coordinator (DRC); Frances Arledge, LHA – Research and Education Foundation Hospital Preparedness Program

Welcome and Introductions

Mr. Knox Andress, Region 7's Hospital Designated Regional Coordinator (DRC), welcomed everyone to the meeting and began introductions.

Regional Updates & Announcements

Mr. Andress provided some details about some important upcoming dates and training opportunities for the month of April and May 2015. These opportunities include HICS Updates course, HazMat for Healthcare course, annual Air Show at Barksdale AFB, and AHLS course. All dates, times, additional information and registration can be found on the Region's calendar within the new LHA-Foundation website Emergency Preparedness Page.

Dr. Alinejad with Barksdale AFB briefed the group on the anticipated number of spectators at the Air Show is around 150,000. He noted that last year, they experience between 150-160 direct patient contacts the weekend of the air show. Hospitals are invited to attend so they can become aware of the medical planning components of the event.

Mr. Andress announced the roll-out of the Regional Continuity of Operations Plan in the next few weeks. He finished by emphasizing the importance of the NDMS hospitals (a total of 11 NDMS facilities in the Region).

Objectives, "Readiness" & 2014 in Review

Frances Arledge began with an introducing the new name of the regional meetings hosted by LHA. The term Rounds is no longer used for the twice/year meetings conducted by the LHA HPP Grant Staff. These meetings are now referred to as Regional Healthcare Coalition Conferences. All hospital, EMS providers, and healthcare industry key players in emergency preparedness and response are invited to attend our regional conferences regardless of whether they directly accept grant funds. This helps continue building coalitions and foster a setting where ALL players are invited to bring ideas to the table and understand the planning functions of the ESF-8 Network.

The meetings objectives are to 1) Provide an overview of ESF-8 activities in the calendar year 2014 at both State and Regional levels, 2) Discuss Healthcare Readiness in Louisiana in the context of an all-hazards approach to emergency preparedness, and 3) Review information and timelines for the current grant year and for future funding opportunities.

Concluding the calendar year 2014, the fear of Ebola presenting unexpectedly in communities and hospitals in particular caused much anxiety. State healthcare leaders across the country were hearing a common message from our hospital and healthcare provider communities that their systems were not ready to safely identify and effectively treat an Ebola patient.

Hospital Readiness

Hospitals define readiness by knowing the risks to their organizations, having the plans to mitigate and respond to those risks, and having the resources to support the plans. There are also regulatory components to readiness as they relate to The Joint Commission accreditation and soon the Center for Medicare & Medicaid Services (CMS) proposed conditions of participation as they relate to hospital compliance for reimbursement. The CMS final rule on conditions of participation are expected to come out by the end of the 2015 calendar year. The requirements look very familiar including the emphasis on all-hazards planning, addressing key elements in planning, testing plans and conducting training exercises, and an expectation for collaboration and effective communication.

The HPP Grant has its own requirements for "readiness" as deliverables of the program. The Capability Planning Guidelines (CPGs) were reviewed. A discussion was held about how these CPGs are broken down into measurable levels of preparedness at the State level, the Regional/Coalition level, all the way down to the Hospitals and EMS provider levels. Through these defined CPGs and accompanying activities, hospitals and EMS providers are able to meet many of the regulatory compliance requirements by participating in Regional and State level exercises and planning activities. Louisiana has been nationally recognized by multiple sources as having a well-defined ESF-8 structure that supports the health and medical systems planning and response functions.

All Hazards Preparedness

This is a systematic approach to identify hazards/threats to an organization in order to evaluate the risk level and prioritize planning and mitigation efforts. Hospitals are not the only entities to use this method in approaching emergency preparedness. In our state, Public Health uses a Jurisdictional Risk Assessment (JRA) and the Governor's Office of Homeland Security uses the THIRA tool to assess risks in various regions. The HVA can be considered a "starting-point" to drive planning efforts and ensure their effectiveness. A routine risk assessment is also a regulatory requirement for the Joint Commission and CMS's proposed conditions of participation. The ESF-8 Network has a new HVA tool that can be accessed through the ESF-8 Portal to assist hospitals in developing a facility specific HVA. The tool was designed

with input from the Designated Regional Coordinators along with some of the front-line hospitals in order to capture necessary components of an HVA using a consistent rating scale that is user friendly. The new tool will allow for Regional and State level analysis to be used in planning. A review of common threats ranked by the 2013 HVA analysis – includes the percentage of hospitals who scored severe weather, mass casualty incidents, and epidemics as top threats. The group was asked to think about how the scores for these threats may change year-to-year based on the most current events experienced. This is why it's important to give serious consideration when conducting the HVA based on actual events experienced by a facility, frequency, as well as the anticipated community reaction.

The concept of Continuity of Operations Planning (COOP) was introduced to the coalitions in 2014. Most hospitals include the various elements of COOP in their standard Emergency Operations Plan. A slide was presented showing a diagram of where COOP falls in a disaster timeline – right after the initial response but right before the short term recovery. While it is important for hospitals to continue to develop, maintain, and test the various components of COOP at the facility level, it is a priority for our coalition leaders to develop Regional COOPs. The key components of COOP are effectively assessing risks, determining what is “mission essential” and identifying leadership and decision authority. The state already has a COOP plan that focuses on ensuring the ongoing viability of the ESF-8 Network in community-wide events, supports the ESF8 network with a virtual structure, and supports coalition members to begin recovery efforts for their organization. The Regional COOPs should support the State COOP and should be used by coalition members as a reference for facility based COOP efforts. The DRC will review the components of the Regional COOP, where it can be accessed, and how it applies to individual facilities and EMS providers once its final draft is published.

Resource Assessments

The Hospital Preparedness Program helps to fund the various State and Regional Response Resources. They are broken down by the systems, plans, tools, and materials. The group was presented with thorough examples of what falls into each of these categories. An overview of the resources at the facility level was provided to the group based on the previous grant year's Needs Assessment Survey data in the categories of pharmaceuticals and PPE. A flow chart of the resource request process was reviewed with emphasis on the importance of the DRC role in assisting hospitals with requesting resources when they are unable to resolve issues within their facility or system as written in plans.

What's next in Hospital Readiness: Future HPP and Ebola funding?

A slide with pre-identified state priorities for the future of funding hospital readiness was presented. A sample survey was taken from some of the designated regional hospital representatives and hospital preparedness program board members outlining the priorities of the program under the constraints of reduced federal funding. The group ranked the following; 1) ESF-8 Infrastructure – DRCs, 2) ESF-8 Information Systems, 3) Training/Education, and 4) Develop/Maintain PPE and Pharmaceuticals. The group expressed a level of agreement with this ranking despite the recent Ebola scare which might influence and alter the priorities.

HPP Grant funding opportunity for the FY 2015-2016 grant has been published and the state will experience a slight reduction, by about 4% from the FY 2014-2015 grant. The state DHH leadership is in the midst of researching options for distributing the Ebola funds, Part B to the hospitals across our state. Currently no facility has stepped forward and identified as being an Ebola Assessment Hospital. The group was briefed on the Part “A” funds and the regional treatment center for our region, FEMA Region 6.

Announcements

Hurricane Season 2015 To Do's: Review and update facility contact information in the ESF-8 Portal, assess plans and resources, and participate in the state-wide bed during the MIEP exercise the week of April 14-18, 2015 (Slide #58). More information to come on the bed poll reporting requirements.

HPP Grant, Phase 2 Submitting Documentation for Reimbursement: Same process as last year. The first deadline for early reimbursement is March 31, 2015 and the final deadline is May 29, 2015. Must provide copies, show proof of payment, and include a 10% match as defined in the Participation Agreements (Slides #59-61). A Grant Summary Worksheet as well as the Needs Assessment Certificate of Completion must be submitted in the Grant Management System as well. All documentation, links, and user tools can be found on the new LHA-Research and Education Foundation website on the Emergency Preparedness page.

Facility and EMS Site Visits: Are to be conducted by the DRC for Hospitals and by BEMS for EMS. You should have already received notification from the HPP Grant office if you are due for a site visit this year. Your DRC or Liz with BEMS will be contacting you to schedule these visits. See the handouts provided for details of what to expect (Slide #62).

Needs Assessment Survey Deadline: March 31, 2015 all HPP grant fund recipients must complete a Needs Assessment Survey for their hospital or EMS provider. This is a requirement of HPP Grant participation. The Certificate of Completion should be saved with your grant documentation and uploaded into the Grant Management System along with your reimbursement documentation. All hospitals and EMS providers who do not accept grant funds are still strongly encouraged to complete the survey as it helps with Regional and State planning.

Adjournment

The meeting ended at 3:00 PM.
