

Health and Human Services Hospital Preparedness Program

Fall 2015

Regional Healthcare Coalition Conference

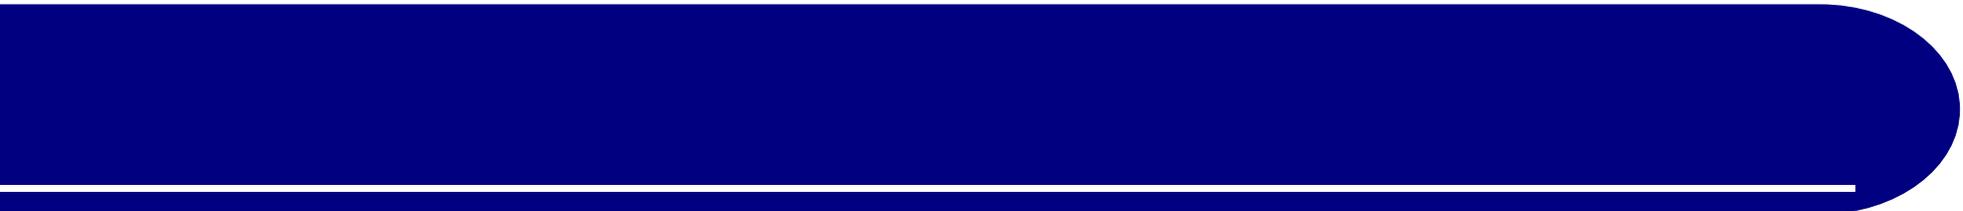

Joint Hospital & EMS Session

Agenda

Welcome & Introductions	Regional DRC
Developing Emergency Programs	HPP Grant Staff
Regional Needs Assessment Data & Spending Priorities	Regional DRC
Ebola Grant & Infectious Disease Planning	HPP Grant Staff
ESF-8 Portal & Emergency Program Planning Resources	HPP Grant Staff Regional DRC
FY 2015-2016 Hospital Preparedness Program Overview Phase 1: Accepting Grant Funds	HPP Grant Staff
Announcements <ul style="list-style-type: none"> • Future Education Opportunities • HPP Grant Deadlines • ESF8 Portal Clean-up & Platform Transition 	HPP Grant Staff

DEVELOPING EMERGENCY MANAGEMENT PROGRAMS

Shifting our focus from Emergency Preparedness Planning to Emergency Management Programs
in Healthcare Facilities and Healthcare Coalitions

Emergency Management Planning vs. Emergency Management Program

- **Program** – organized collection of projects, activities and/or individual plans in an established framework; implies regular, ongoing activities
- **Plans** – set of guidelines that are inactive until “activated”

Developing Coalitions and Emergency Management Programs

1. Elements of an Emergency Management Program
2. How coalitions assist in reinforcing facility-level programs
3. How individual organizations strengthen regional coalitions

Developing an Emergency Management Program

Basic Best Practices

- Follow the Emergency Preparedness Cycle
- Be flexible & scalable in every phase
- Engage leadership and maintain an active committee
- Adopt and Practice HICS regularly
 - Establish Leadership and Direction
- Address All-Hazards
 - Planned Events
 - No Notice Events

Emergency Management Program Elements

- **Identify/Assess Risks**
- **Mitigation**
 - Think Preventative
- **Develop Plans**
- **Preparedness**
 - Capacity and Capability
- **Response**
 - EOP guided
 - Hazard specific, goal driven
- **Recovery**
 - Continuity of Operations (COOP)
 - Return to Normal or level of “New Normal”

Mitigation Activities

- HVA identify threats, priorities to drive mitigation strategies
- Examples:
 - Structural
 - Non-Structural

How Coalitions Mitigate

- Public Health maintaining Medical Special Needs registries
 - Share data with local EMS and Hospitals to assist with anticipation for support during events
- Purchasing additional resources and maintaining contractual arrangements to fill pre-identified gaps
 - PPE caches
 - Surplus Morgue Space

Preparedness Activities

- Building and sustaining response and recovery resiliency, capacities, and capabilities
 - Establish – develop plans
 - Implement – communicate and practice
 - Refine – evaluations and after-action reporting
 - Maintain – review, revise, and communicate changes

Discussion

What do you have at your facility or agency?

- 1) Resources – equipment, caches, supplies
- 2) Skills – specialized teams
- 3) Routine training and exercises offered

Discussion cont'd

Other Resources

- What other *external* resources and plans are available to you – as a facility and as a coalition?
 - ❖ Community
 - ❖ Hospital system
 - ❖ Public Health
 - ❖ OHSEP

- Impacts to an Emergency Preparedness Program?

Response Activities

- Directly address the hazard impact
 - Anticipation of impending threat
 - Actions during and shortly after threat
- Emergency Operations Plans provide specific guidance for incident response, resource needs, and asset deployment
- Important to record and track response activities to assist with after action reporting, improvement planning, and opportunities to receive financial reimbursement

Recovery Activities

- Mostly result of major events
- Healthcare specifics of recovery:
 - Return to “readiness” of emergency response resources
 - Backlogs of pending medical cases
 - Address personnel impacts from incident
 - Restoration of property loss or damage
 - Normal healthcare delivery, with widely publicized information of this to the organization's usual medical population

Discussion

EMS Recovery Activities

- Returning to field from staging areas
- Assessing EMS facilities, making and establishing operations at an alternate location if necessary
- Identifying alternate locations and sources to re-supply critical resources
- Determine post-event communications impacts and capability
- Coordination with other first responder entities as well as local hospital networks for operational status awareness

Benefits of a HCC to a HCF's Emergency Management Program

- Distributing the mitigation and preparedness workload among facilities
- Establishing familiarity and trust among HCF's that promotes cohesive response actions during an event
- Fulfilling regulatory requirements for emergency planning
- Promoting close integration with jurisdictional authorities for mitigation and preparedness planning, and for pre-planning of schedule unusual events, such as mass gatherings or high-security events

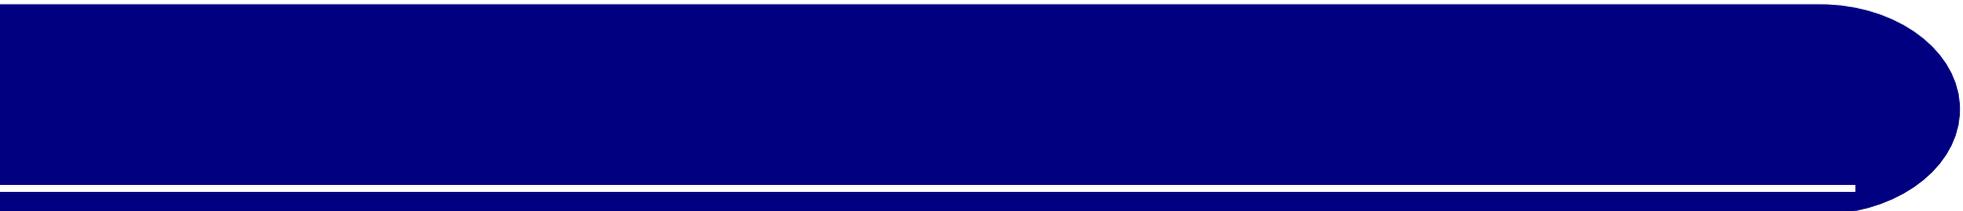

Emergency Program

A Coalition's Role in Louisiana

- Conduct regional exercises so facilities can test plans and provides visibility of a regional common operating picture
- Site visit, Needs assessment and HVA results help regional and state leaders identify gaps
 - Drives future exercises & training opportunities
 - Plan development and revisions
 - Resource needs
- Leverage individual organizations capabilities and resources to create a holistic, regional approach to planning

REGIONAL PROGRESS & PRIORITIES

Regional Needs Assessment Survey Results

- Exercises and Gaps Identified
- PPE & Pharmaceutical Caches

Region 1

Region 4

Region 7

Region 2

Region 5

Region 8

Region 3

Region 6

Region 9

Preparedness & Spending Priorities

Hospitals

DRC to share four-year plan and regional planning priorities

Pharmaceutical Cache recommendations revised

Preparedness & Spending Priorities

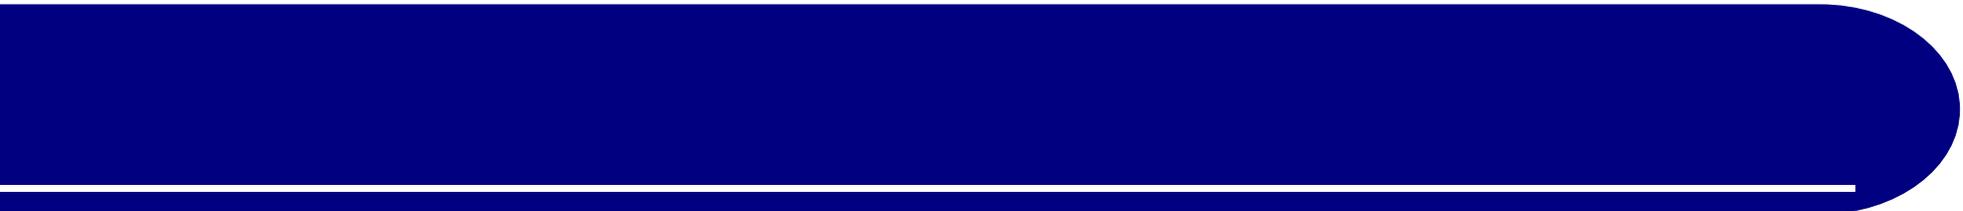

EMS

Interoperable Communications

Training and Exercises

PRIORITIES	TRAINING	EXERCISES
CBRNE/AHLS (HazMat Life Support)	AHLS (Advanced Hazmat Life Support)	
Interagency Collaboration	MAC training, IMT, ICS (Advanced)	Regional Tabletop progressing to Full Scale
Active shooter	TECC	
IMT/ICS/Unified Command	IMT/ASTL	
Levels of PPE Application	PPE (NCBRT NC), National Guard PPE course	
AHLS — Advanced Hazmat Life Support IMT — Incident Management Team training TECC — Tactical Emergency Casualty Care MAC — Multi-Agency Coordination training ICS — Incident Command System Training ASTL — Ambulance Strike Team/medical Task Force Leader course		

EBOLA & OTHER INFECTIOUS DISEASES

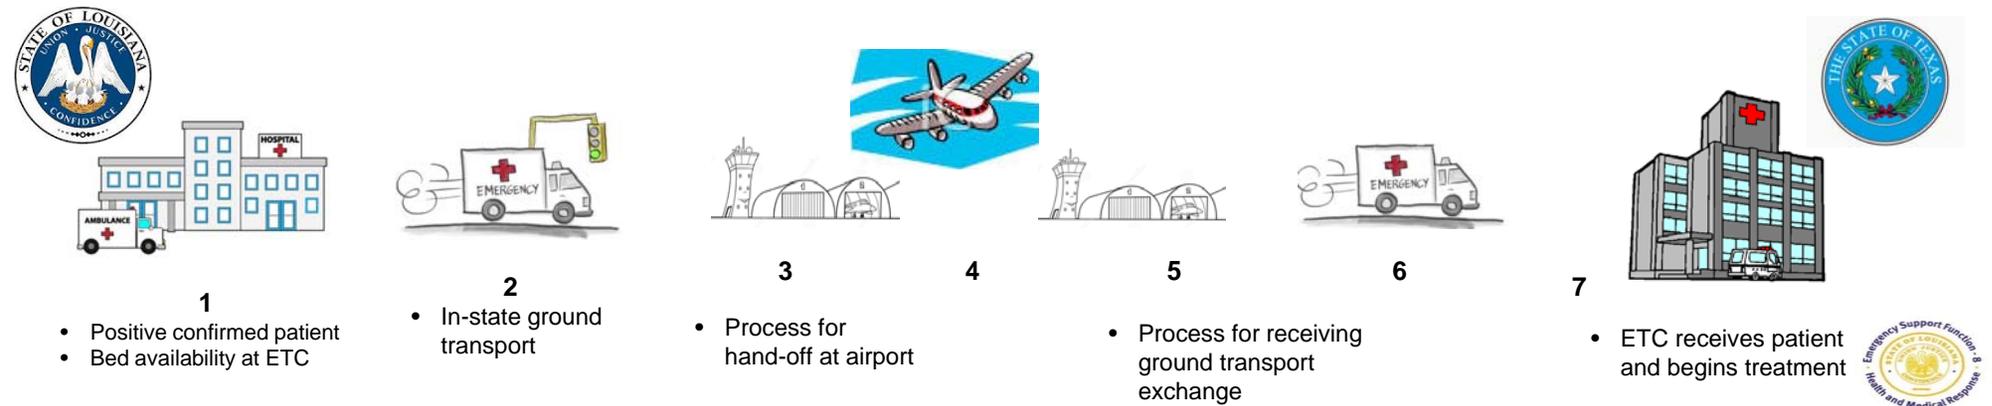

Ebola Grant Update

- Louisiana received funds intended to support an Assessment Hospital and Transportation Provider
 - At this time, no Assessment Hospital has been identified
 - One EMS provider will be awarded
- Hospitals in Louisiana have the capability to identify, isolate, and report suspected and confirmed cases of Ebola
- Currently developing a plan to coordinate with the Regional Ebola Treatment Center (ETC) in Texas to meet training and exercise requirements

Ebola Grant Update – Regional Planning

- LA ESF8 Leadership, including a new infectious disease coordinator, are actively involved in regional (FEMA Region VI) CONOPS planning
 - Jill Hulin, RN is the HPP Infectious Disease Planner
- An exercise is planned November 2015 to practice steps from confirmed Ebola patient through Transport to ETC

Ebola & Other Highly Infectious Diseases

- State level planning focus areas
 - Active monitoring and direct active monitoring
 - Communication and coordination
 - Local and State Public Health
 - Federal (CDC) and Interstate Public Health Officials
 - Assessment Hospitals and EMS providers
 - Treatment Hospital
- Training focus areas for Clinicians
 - Modules specific to infectious disease identification, reporting, and response

PLANNING RESOURCES & THE ESF8 PORTAL

ESF-8

Emergency Planning Resources

What's available for hospitals to continue to develop plans, stay connected within their regional coalitions, and understand their roles in large scale events?

- LHA-Foundation Website

- ESF-8 Documents Portal
 - State Plans
 - Regional Plans

ESF-8 Portal Resources

- **Goal:** Provide hospitals with the tools to become more self sufficient with using the ESF-8 portal
 - User guides, video tutorials, and help documents available to assist hospitals and users
 - Complete List of guides available with links directly to those resources

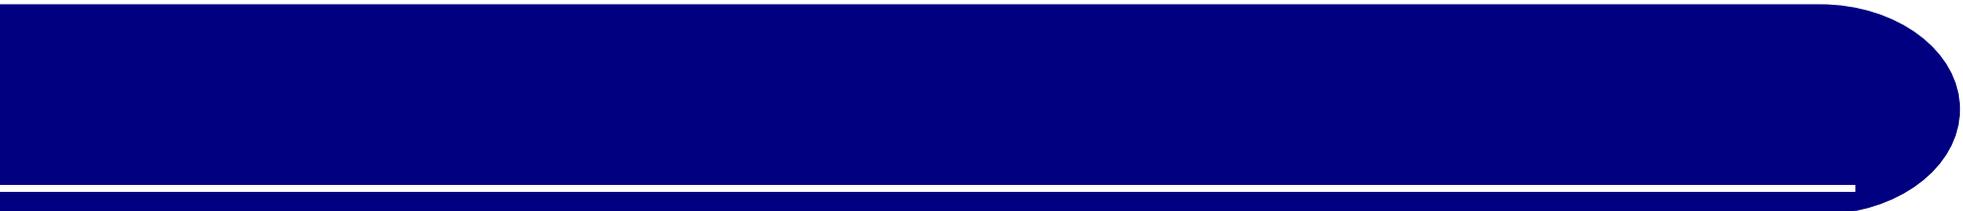

ESF 8 Portal

Maintaining *Users and People*

- Each organization is responsible to control and maintain lists of people with portal access.
- Limit number of facility level *People/Users*
- *How-to* video tutorials available on the ESF8 Portal
- Begin transition to *new* platform end of 2015!

HOSPITAL PREPAREDNESS PROGRAM (HPP) GRANT FY 2015-2016

HPP Grant FY 2015-2016

- Facility & Provider level recipients in all regions, except one
- Hospital Regional Project pre-determined for Region 4
- EMS Project pre-determined for LRAA Asset Management Services

Louisiana HPP Grant Funds (25/75 split)	FY 2015-2016	FY 2014-2015
Total Grant	\$ 1,415,439.00	\$ 1,762,334.00
- EMS	\$ 361,078.49	\$ 449,571.40
- Hospital	\$ 1,054,360.51	\$ 1,312,762.60

FY 2015-2016:

Approach to Allocation of Funds

- All licensed and operating hospitals are offered an opportunity to receive grant funds.
- **Primary Goal: Preserve the ESF8 Regional Response Network**

HOSPITAL MODEL

- Funds for ESF8 Infrastructure allocated first.
 - ADRC role, Volunteer DRCs
- Variables applied to distribute remaining funds to participating facilities.
 - Participation in grant activities
 - Parish Population
 - Hospital Pressure Factor: Number of Hospitals, ED Volume
 - Size of Hospital (Licensed Beds)

FY 2015-2016:

Approach to Allocation of Funds

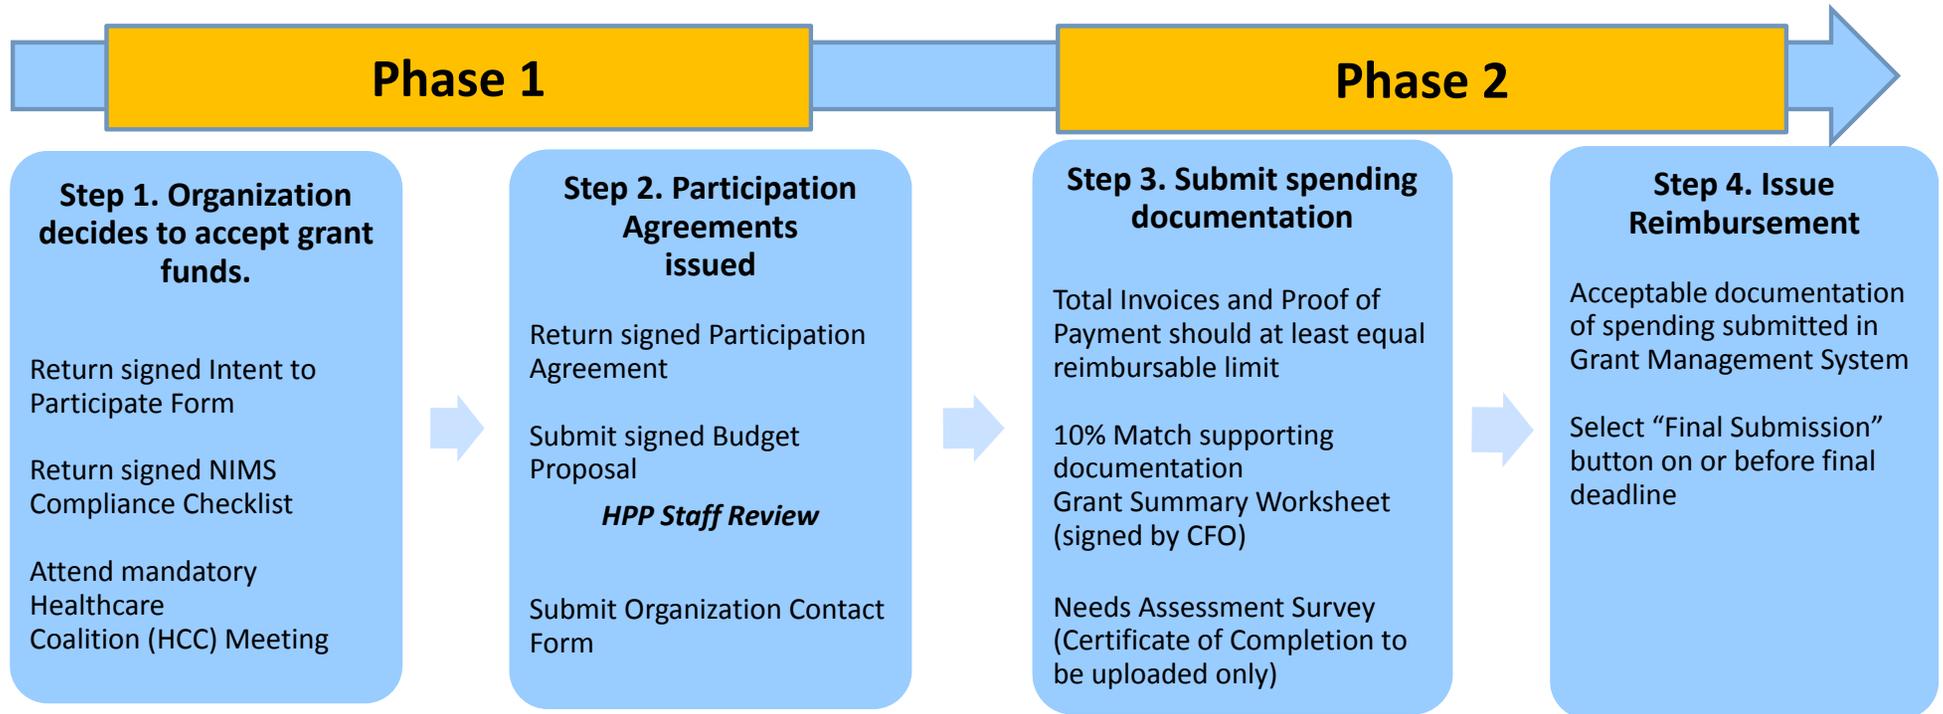

- All licensed and operating EMS providers are offered an opportunity to receive grant funds.
- **Primary Goal: Preserve the ESF8 Regional Response Network**

EMS MODEL

- Funds for ESF8 Infrastructure allocated first.
 - CHEMPACK Host Site, Volunteer DRC, LRAA Project
- Variables applied to distribute remaining funds to participating facilities.
 - Participation in grant activities, i.e., Needs Assessment Survey
 - Provider Support (10%)
 - Unit Support (90%)

HPP Grant Participation Process

1. Reimbursement checks may take up to 60 days after the grant staff has marked your file complete. Consider your facility's fiscal deadlines when submitting documentation.
2. If the CEO/EMS Director is different from the person pre-printed on the Participation Agreement a change in administration letter must be submitted.
3. If someone other than the CEO/EMS Director signs grant documents, written documentation of signature authority must be provided.

HPP Grant FY 2015-2016

Organizational Decision to Accept Grant Funds

- ✓ **Step 1: Intent to Accept Grant Funds** collected in August 2015
 - ✦ Signed Intent to Accept Funds form
 - ✦ NIMS Compliance Attestation
 - ✦ Attend Fall Healthcare Coalition Workshop
 - ✦ ***Understand*** Audit Requirements

Audit Requirements

Louisiana State Requirement (LA R.S. 24:513)

The following entities must submit an annual financial report to the Legislative Auditor no later than six months after their fiscal year ends.

- **Any not-for-profit recipients** that receive or expend any (from the first dollar) local or state assistance **including grants**, loans, transfers of property, awards, and direct appropriations from state or local public funds; and
- **Any organization, either for-profit or not-for-profit recipients** that are subject to the open meeting laws and derives any portion of its income from payments received from any public agency or body.

Federal (A-133 Audit) Requirement (OMB Circular A-133)

Non-Federal entities that expend or receive \$500,000 or more in a year in Federal funds (excluding Medicare and Medicaid Awards) shall have a single or program-specific audit conducted for that year.

HPP Grant FY2015-2016

Participation Agreement to Accept Grant Funds

Step 2: Participation Agreements Issued by LHAREF

- Includes total allocated dollar amount
- Details 10% match requirements
 - Allowable per grant guidelines
 - Documented and verifiable
 - Included in the approved budget
 - NOT included in any other federally assisted program
- Spending guidelines

HPP Grant FY2015-2016

Participation Agreement to Accept Grant Funds

Step 2 TO DO:

➤ Upload Documents and Accept Grant in GMS

- ✧ CEO Signature Page
- ✧ Budget Proposal (new form) – signed by CEO
- ✧ Updated Facility Contact Form
- ✧ Signed MOU (EMS only)

● All Budget Proposals will be reviewed.

- Revised form
- Details of intended purpose along with support for readiness

HPP Grant FY2015-2016

Document Spending

Step 3: Document spending.

- ✧ Track spending (beginning July 2015)

Collect :

- ✧ Invoices
- ✧ Receipts
- ✧ Matching documents
- ✧ Needs Assessment Survey will be due **March 31, 2016**

HPP Grant FY2015-2016

Reimbursement Issued

Step 4: Reimbursement Issued

- ❖ Acceptable proof of spending and payment must be submitted for review.
- ❖ All purchases are reviewed
- ❖ HPP grant staff will request additional information if needed to clarify
- ❖ Documentation showing Needs Assessment Survey completed.

Recipients that submit complete, acceptable documentation prior to the deadline AND complete the Needs Assessment Survey will qualify for early reimbursement

Needs Assessment Survey Results

Region 8 Exercises & Gaps

Exercise & Event Types (20 Reported)		Gaps Identified	
17%	Natural	43%	Communication
28%	Manmade (including active shooter)	43%	Resource Availability
22%	Chemical	9%	Planning
5%	Biological	5%	Other
17%	Explosive	-	Staff Competency/Skills
11%	Nuclear		
-	Radiological		

Needs Assessment Survey Results

Region 8 PPE & Pharmaceutical Caches

Pharmaceutical Caches projected to expire by end of 2015	Projected weeks of PPE in hospital cache (as of Spring 2015)
8% hospitals → More than 50% will expire	29% hospitals → Less than 2 weeks
23% hospital → Approximately 50% will expire	35% hospitals → Approximately 2-4 weeks
23% hospital → Approximately 25% will expire	18% hospitals → Approximately 4-6 weeks
46% hospitals → Less than 25% will expire	18% hospitals → More than 6 weeks
*4 hospitals do not have a cache	

EMS Exercises & Events

Region 8

- 5 Providers completed the survey
- 5 Exercises Reported

Exercise Types

- ✓ 2 Full-scale
- ✓ 2 Tabletop
- ✓ 1 Functional

Capabilities Tested

- ✓ 2 tested more than one capability
- ✓ 2 tested Emergency Operations Coordination
- ✓ 1 tested Healthcare System Preparedness
- ALL completed AAR/IPs and were coordinated with a hospital

ALL HAZARDS EXERCISED
