

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
Trigger Point	H Hour	STATE ACTIONS		FEDERAL ACTIONS	
1	H-144	ESF-5	Monitoring Weather Situation	Ops	Alert and issue PTDO to IMAT, MERS and DCE to support operations in Louisiana
				Ops	Alert ESFs and State liaisons of potential deployment and provide current weather situation
				Ops	Activate Core Planning Team (CPT) to monitor situation and provide updates/recommendations to leadership
				Watch	Establish communication with NHC/NWS on approaching weather events of interest
				Watch	Coordinate with IT to ensure RRCC equipment is operational
				Watch	Create WebEOC incident
				Watch	Gain situation awareness and publish SPOT reports as needed
				GIS	Contact Remote Sensing Coordinator at HQ to activate NGA, if required
				IAG	Assess availability of human and material IA and ESF-6 resources for assignment and potential deployment
				RA	Alert and coordinate with pre-designated FCO
				RA	Coordinate with GOHSEP EM Director to ensure situational awareness
				RA	Convene initial coordination meeting with R6 Command and General Staff
				RA	Activate the Regional Response Coordination Center (RRCC) to <i>Level 3</i> with selected ESFs, if needed
				Watch	Prepare/issue OPORD to activate the RRCC and deploy response resources
				RA	Deploy the IMAT/MERS/DCE to support operations in Louisiana (MA-for deployment of DCE)
				Ops	Request to HQ for deployment of Back-up Region to R6 AOR (RRCS, IOF, etc.)
				RRCS	Deploy selected ESFs to the RRCC and IOF (MA-for activation and deployment of ESFs)
				RRCS	SAS conducts IMAT situation brief before deployment
				REC	Create Incident report in NEMIS
				RRCS	RSS reviews/identifies applicable pre-scripted mission assignments (PSMA)
		RRCS	RSS Alert ESF-8 for potential activation of NDMS partners for potential patient evacuation (HHS, VA, DoD)		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
2	H-120			RRCS	RSS Alert ESF-8 for potential activation of FMS sites (MA-to ESF 8 for activation of FMS sites)
				RRCS	Begin conference calls between NRCC, DoD, contractors, state and local authorities to discuss potential evacuation
				RRCS	RSS Activate FSA and deploy teams (FEMA, Transportation, TAV, ESF-3, and ESF-4)
				RRCS	SAS continues gathering information to maintain situation awareness and publish Spot Reports (SPOTREP)
				RRCS	PSS develops initial Regional Support Plan (RSP)
				RRCS	SAS reviews/modifies the Information Collection Plan (ICP)
				RRCS	Submit RRF for remote sensing capabilities (request mobile NGA GEOINT to support USAR field teams and other FEMA teams)
				RRCS	SAS establishes remote sensing coordination calls
				RRCS	Request NWS personnel deploy to the RRCC
				RRCS	Mission Support Allocate use of surge accounts
				IMAT	Coordinate with GOHSEP counterparts to verify readiness posture; review resource availability/requirements
				MERS	Ensure all deployable equipment is functional and available for deployment
				DCO/ DCE	Request through NORTHCOM to TRANSCOM a market survey of available commercial airlift
				DCO/ DCE	Alert and issue PTDO to REPLOs for deployment to RRCC
		DCO/ DCE	Alert and issue PTDO to DoD AE Enablers for possible NDMS evacuation mission		
2	H-120	ESF-1	Transportation contract and MOU in place to support Gen. Pop. and ESF-8 evacuations (700 Coaches, 35 Para-transit, School buses) MUST BE CONDUCTED REGARDLESS OF H-HOUR. H-72 WILL PROVIDE 50% CAPABILITY	ESF-1	Initiate actions to determine transportation staffing requirements to be submitted to R6 Operations
2	H-120			ESF-1	Alert FAA Air Traffic Organization for MSY ICP support
				ESF-1	Initiate MARAD ship availability report for safe-store, berthing, command & control and port restoration support
		ESF-2	Test the State Emergency Communications System	ESF-2	Provide operable and interoperable communications to evacuation mission and command and control
		ESF-3	Debris contracts in place for coastal districts		
		ESF-5	GOSHEP Crisis Action Team (CAT) is activated		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
2	H-120	ESF-5	State Planning, Exercise, Coordination with locals, state agencies, federal, etc.		
		ESF-5	Unified Command discusses State Declaration of Emergency and pre-landfall Federal Declaration of Emergency MUST BE CONDUCTED REGARDLESS OF H HOUR		
		ESF-5	Initiate life support package for Host State LNO's: lodging; transportation; commo; etc.		
		ESF-5	Initiate Parish Conference Calls and establish operational rhythm		
Governor's CIR: Any tropical depression or storm enters or develops in the Caribbean Sea, the Southern Atlantic Ocean, or the Gulf of Mexico. Any changes to the manning level of the State EOC.					
State and Federal Decision Makers Discuss Emergency Declaration(s): State declaration in place NLT H-108 – when to submit request for Federal Declaration					
2	H-120	ESF-6	LDOC on alert for activation of Inmate Emergency Evacuation Plan	REC	Support the activation of the RRCC by staffing ESF-6 in the RRCC (IA Group Supervisor, IA Spec, Mass Care, VAL, Donations)
		ESF-6	Supplies being staged in local areas for shelter operations	IAG	Identify and alert ESF-6 staff for potential IMAT/PDA/JFO and other teams as necessary
		ESF-6	Confirm State shelter capacity in tracking database	IAG	Begin to identify possible IA TAC III Task Orders in support of potential State request including MC/EA and DHOPS based on Task Books
		ESF-6	Activate DCFS EOC with core team	IAG	Identify MCOV resources and potential initial staging areas
		ESF-6	Alert wrap around services contracts	Mass Care	Monitor the multiple Mass Care/Emergency Assistance (MC/EA) Information Systems (NSS, NEFRLS, WEB EOC, ect.)
		ESF-6	Coordinate with ARC on general population capacity MUST BE CONDUCTED REGARDLESS OF H HOUR	Mass Care	Coordinate with the State for potential shortfall and other needed support
				Mass Care	Assign Mass Care Host State Coordinator
				Mass Care	Coordinate with SAS-GIS for map of potential shelter locations
				Mass Care	Review prescript mission assignments (PSMAs) to support mass care and emergency assistance operations
				Mass Care	Review prescript mission assignments (PSMAs) to support mass care and emergency assistance operations
				Mass Care	Participate in Logistics Conference Calls and work to identify available resources to support potential State shortfalls/request

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
2	H-120			RRCS	RSS initiate coordination with Logistics Management Center (LMC) and access current IRR inventory
				RRCS	Logistics External Support Branch - Coordinate with ESF-6 on affected population and prepare eTasker for CUSI Kits (Infant & Toddler, DME, CMS etc.)
				RRCS	RSS submit eTasker for ISB/FSA Shuttle Fleet. Coordinate with Logistics Management Center (LMC), on DLA/DESC IAA fuel mission at the ISB/FSA
				RRCS	RSS access IRR inventory and additional requirements to meet potential state shortfalls and to preposition assets
				RRCS	RSS request (Storm) Fleet cards from HQ for ISB/FSA operations
				RRCS	Execute RRFs, MOA's and Draft Mission Assignments.
				RRCS	(MOA for Camp Beauregard/Esler Airport, MA for USACE commodity PRT, DTOS, GSA Leasing and CSDs)
				IMAT Log	Request (5) Mobile Communications Office Vehicles (MCOV) to be staged at the ISB/FSA
				IMAT Log	Coordinate with GOHSEP logistics to confirm potential support requirements and anticipated resource needs
				IMAT Log	Initiate coordination with the LRO on possible IOF (Sherwood Forest) and staging facilities. Deploy logistics staff to identify and setup an IOF, JIC, and JFO in Baton Rouge.
				IMAT Log	Start initial coordination with GSA for lease on building for JFO (est. 200K sq ft) in Baton Rouge.
2	H-120	ESF-7	Coordinate with ULE Finance for possible activation of DOA personnel		
		ESF-7	Initiate coordination with FEMA Region 6 Logistics for possible Push Packages and FSA / RSA operations		
		ESF-8	Internal readiness of assets; notification of ESF-8 assets	ESF-8	Alert NDMS partners for potential activation of NDMS for potential patient evacuation
		ESF-8	Notify EMS contractors MUST BE CONDUCTED REGARDLESS OF H HOUR	ESF-8	Monitor ESF-8 activities in other Gulf Coast States

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
2	H-120			ESF-8	Prepare for and coordinate ESF-8 resource and deployment decision making with competing states
2	H-120	ESF-10	LDEQ's Incident Management Team (IMT) activates		
		ESF-10	LDEQ liaisons contact LSP, Parish EOC's and other officials in the areas of potential impact		
		ESF-10	LDEQ Headquarters and regional offices ensure readiness of assets		
		ESF-11	Notify and coordinate Emergency Contracts, CTN Shelter facilities, Local, State, Federal agency partners, MOU's, NGO's, etc., to activation and deployment status.	ESF 11	Staff ESF-11 at RRCC with USDA elements as needed depending on the threat to fulfill FEMA mission assignments.
		ESF-11	Pre-position and store pet transport crates and shelter cages at Correctional Facilities and regional depots as resource for pet sheltering and transportation.	ESF-11	ESF-11 places three USDA APHIS Animal Care responders on alert for possible deployment to assist LDAF IC with pet evacuations at identified CTN Parish Pick Up Points.
		ESF-11	Confirm CTN pet shelter capacity.		
		ESF-11	Fill LDAF fuel tanks to capacity.		
		ESF-11	LDAF IMT prepare to report to work stations.		
		ESF-11	Notify and coordinate with APHIS regarding potential needs for APHIS Technical Specialist		
		ESF-13	DOI participate in legal assistance in research and drafting of executive orders and proclamations		
		ESF-15	Public Information Campaign for southeast and southwest utilizing the Louisiana citizen awareness and disaster guide	ESF-15	Maintain consistency of message
		ESF-15	Prepare press release for CAT activation	ESF-15	Initiate coordination calls and emails with Congressional Offices
		ESF-15	Advise State partners of possible JIC activation		
		ESF-15	Coordinate the state's message with state agencies		
		ESF-15	Provide up-to-date information to media as it becomes available		
ESF-15	Prepare messages as needed: shelter; evacuation; EAS; Reverse 911 scripts				
ESF-15	Monitor media to ensure state messages are being received and released by press and to ensure accuracy of press information				
2	H-110	ESF-8	Notify: EMS TOC contractors; BEMS TOC staff deploy; processing site manager regarding site activation DHH logistics; EMS DRC-ambulance contracts		
2	H-108			RA	Determine the status of Emergency Declaration

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
2	H-108	ESF-5	Unified Command will make a decision on the State of Emergency Declaration		
		ESF-5	Unified Command will make a decision for submitting a request for pre-event Federal Emergency Declaration		
		ESF-5	Activate EMAC Cell – Notify EMAC Coordinator of the activation request and need for EMAC A-Team staff to deploy to GOHSEP HQ, number of A-Team staff will be determined based on size of disaster and EMAC staffing needs.		
		ESF-7	Alert owner of Terminal Transfer Warehouse to open NLT H-100 IOT support bus evacuation at VSA(s)		
2	H-102	ESF-1	Activate contracts for Coach buses and Para-transit vehicles to support movement of the general population and to support ESF-8		
		ESF-1	Submit Action Request Form (ARF) to FEMA requesting Air Evacuation assistance		
		ESF-1	Activate Vehicle Staging Area		
		ESF-1	Activate the DOTD EOC		
		ESF-1	Decision to activate DOE Interagency Agreement for school busses with and without drivers		
		ESF-2	Decision to activate LANG MOU for school bus drivers		
		ESF-6	Shelter support/IT/PPP contracts activated		
		ESF-6	Communicate with shelter TF/support agencies		
		ESF-7	Move all required equipment and personnel to the OMV and set-up full Unified Logistics Element	IMAT	Coordinate with operations on any logistical support to Air, Bus or ambulance evacuation missions if activated
		ESF-7	Coordinate with ULE Finance for possible activation of commercial support contracts		
		ESF-8	Alert State ambulances, verifying the number of units available		
		ESF-8	Activate BEMS TOC		
		ESF-8	Activate processing site	RRCS	Request HQ activate ambulance contract
		ESF-8	Request activation of Federal ambulance contracts (FEMA and EMAC)		
		ESF-8	Notify DRC Network-ambulance activities		
ESF-8	Deploy BEMS staff to EOC's				
ESF-8	Processing site staff report for site set up				
2	H-102			ESF-11	Confirm preparation of transport vehicles for people with pets (assuming state asks for task force support)
2	H-102	ESF-15	Disseminate State Declaration of Emergency		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
3	H-96			RA	Submit Declaration request to HQ, if requested
				RRCS	Verify with State decision to deploy and pre-stage NDMS medical evacuation resources
				RRCS	Coordinate with ESF-1 to provide availability of Maritime Administration (MARAD)
				RRCS	Coordinate with ESF-8 to mobilize 4 FMS pre-staged at Camp Beauregard
				RRCS	Coordinate with ESF-8 to deploy DMATs and Strike Teams
				RRCS	Coordinate with ESF-7 to deploy GSA for leasing and contract support
				RRCS	Coordinate with FEMA HQ for ESF-9 SAR support
				RRCS	Deploy MERS communications and logistics support as requested
				RRCS	Activate and deploy TSA screeners, FAMS, MSY Incident Command Post personnel and the LRO support staff
				RRCS	Notify Host Region(s) of potential air evacuation
				RRCS	<i>MA-to DoD for air movement of Gen. Pop (CTN)</i>
				RRCS	<i>MA - activation of NDMS and ensure activation of designated FCCs</i>
				RRCS	SAS utilize HURREVAC, SLOSH display, HAZUS, USACE Models and NWS for decision making and on impact
				RRCS	SAS-GIS coordinates with Mapping and Analysis Center (MAC)
				RRCS	SAS conduct situation awareness conference calls(including FEMA HQ, other FEMA regions, states, HLT and NWS
				RRCS	Implement resource tracking in the RRCC
				RRCS	Publish Regional Support Plan
				RRCS	Ensure surge funding is in place
				RRCS	Survey local lodging for personnel billeting
				REC DIV	Deploy DSAT staff and materials to arrive at IOF at H-72
		DCO/ DCE	Designated REPLOs/DCE staff report to the RRCC		
		ESF-1	Vehicle Staging Areas VSA(s) operational		
		ESF-2	Continue to test State Emergency Communications Systems		
		ESF-4	Activate Regional Coordinators and Parish Liaisons		
		ESF-4	Fire Marshall will review the need for a Statewide ban on burning		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
3	H-96	ESF-5	Track storm and issue alert to Parish Emergency Directors, Governor's Cabinet and ESF Leads		
		ESF-5	Alert all personnel, open and partially staff the State EOC		
		ESF-5	Prepare SITREP for Governor, Governor's Staff, Cabinet, Parish EOC's, State ESFs and FEMA 6		
		ESF-5	Maintain Communications with risk Parish EOCs, neighboring states, Federal volunteer agencies as required		
		ESF-5	Request FEMA Region 6 deploy FEMA Liaison to the State EOC, if not already deployed		
		ESF-5	State EOC at Level 3		
		ESF-5	Notify New Orleans Airport Board (NOAB) of potential air evacuation		
		ESF-5	Notify Host State(s) of potential air evacuation and establish coordination call		
<p>Governor's CIR: Significant changes in storm intensity and projected H-Hour (tropical storm force winds on Louisiana coast). State and Federal Decision Makers Discuss: Voluntary evacuation Order(s); all applicable PSMA's to include; Deployed air/space planners (DoD); Deploy Air Component Coordination Element (DoD)</p>					
3	H-96	ESF-6	Secure deliverables contracts	IAG	Notify HQ of potential IA TAC activation-prepare pre-scripted IA TAC SOWs, request IA TAC planning team for RRCC or IOF (as required)
		ESF-6	Coordinate with support agencies	IAG	Request MCOV deployment to staging areas
		ESF-6	LDOC establishes direct coordination contact with all "at risk" parish and local prison facilities	IAG	Coordinate with the State for potential shortfall and other needed support
		ESF-6	Notify necessary staff of Stand-by status	Mass Care	Deploy Mass Care Liaisons to Host States
		ESF-6	Notify evacuation and shelter locations of Stand-by status		
		ESF-6	Coordinate with Support agencies to notify them of Stand-by status		
		ESF-6	Submit ARF for CTN generators		
		ESF-7	Coordinate with FEMA to refine commodity distribution plans and resource needs	IMAT	ISB/FSA operational and additional staff deployed as needed
				IMAT	Coordinate with the Louisiana National Guard (LANG) to refine commodity distribution plans and resource needs
				IMAT	Publish Initial Operating Report (IOR)

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
3	H-96			IMAT	Conference call with LMC to order and begin to receive IRR supplies and equipment through LMC. Pre-stage transportation assets, teams, and commodities at ISB/FSA (Submit eTasker for water, meals, and tarps)
				IMAT	Coordinate with operations and LMC on Responder Support Camp requirements
				IMAT	Identify JFO equipment/kits from Disaster Information Systems Clearinghouse (DISC)
				IMAT	Request staffing requirements for JFO based on event
				IMAT	Activate service contracts and deploy resources to MSY Screening facility for initial setup to include the ICP
				IMAT	Provide additional Log staff support if bus support, national ambulance contracts, or air ops are activated
				IMAT	Confirm state staging areas, POD locations, and staffing capabilities and/or shortfalls
				IMAT	Confirm operational & staffing capabilities of Camp Minden and Camp Villere
				IMAT	Submit eTasker for 3 power/dry trailers to deploy to Camp Villere to load meals, destination New Orleans pre-landfall, offload and release power/trailers (if requested by the State)
				IMAT	Coordinate (1) trailer of water and (1) trailer of meals to MSY and IOF
State and Federal Decision Makers Discuss: All applicable PSMAs to include: Activate Pre-identified BSI(s), ISB(s), MOB Centers, Air-Medical evacuation sites (DoD + USCG)					
		ESF-8	Prepare to support medical special needs shelters for medical evacuation MUST BE CONDUCTED REGARDLESS OF H HOUR	ESF-8	Coordinate with HHS, DoD and VA to activate NDMS to support patient evacuation to activated FCCs
		ESF-8	Hospitals begin reporting cycle to EMSTAT	ESF-8	Identify and alert ground and air medical evacuation resources, coordinate with State and Federal partners
		ESF-8	DRC's alert hospitals to EVAC and/or SIP	ESF-8	Activate and begin deployment of evacuation and FMS Medical Special Needs Shelter (MSNS) support resources
		ESF-8	Activate State surge ambulance contract		
		ESF-8	Alert Regional MSNS teams		
		ESF-9	No new action		
		ESF-10	LDEQ coordinates with EPA to discuss resource availability including creating a Response Manager incident for data capture		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
3	H-96	ESF-11	Coordinate and initiate request for Federal assistance from USDA.	ESF-11	Coordinate with FEMA Region VI regarding activation and Mission Assignment for ESF-11. If Mission assigned, ESF-11 Coordinator will deploy to RRCS in Denton, TX
		ESF-11	Activate and execute LDAF assets, contracts and MOU's to support LDAF ESF 11 response and emergency fuel operations and missions.	ESF-11	Participate in LDAF teleconferences, et al to maintain situational awareness.
		ESF-11	Notify LDAF CTN Shelter IMT's to prepare to open CTN Pet Shelters,	ESF-11	Advise USDA APHIS personnel on alert to finalize travel plans to Louisiana if requested to deploy and support LDAF.
		ESF-11	Activate pet transportation contract and Notify LDOC of need to activate Support Operations Plan for pet transportation & sheltering MUST BE CONDUCTED REGARDLESS OF H HOUR	ESF-11	If mission assigned, deploy an ESF-11 lead with the FEMA IMAT to Louisiana.
		ESF-11	Staff emergency responder credentialing desk at LDAF ICP and CTN pet shelters.		
		ESF-11	Notify ASAR teams and NGOs of ESF-11 activation status via sit rep and calls		
		ESF-13	Prepare to support Louisiana's Phased Evacuation Plan		
		ESF-13	Prepare to support the evacuation of Prison Population		
		ESF-13	LSP Crisis Response monitors storm progression		
		ESF-13	LSP / DPS personnel placed on telephone standby		
		ESF-13	Status check / availability check of LSP assets		
		ESF-13	Coordination with ESF-13 primary & support agencies		
		ESF-13	Coordination with other State, local & Federal agencies		
		ESF-13	Coordination with Emergency Managers from Mississippi & Texas		
		ESF-13	Alert Federal law enforcement augmentees		
		ESF-15	Coordinate the state's message with state agencies	ESF-15	Virtual Joint Information Center (JIC) is established at the RRCC to support IMAT in field.
		ESF-15	Initiate news media contacts to disseminate public information on: shelters; evacuation; EAS message and Reverse 911 scripts	ESF-15	Deploy field PIOs
		ESF-15	Provide up-to-date information to media as it becomes available	ESF-15	Coordinate with HQ for Federal Response messaging and press releases
ESF-15	Monitor media to ensure state message are being received and released by the press and ensure accuracy of press information	ESF-15	Coordinate with logistics to establish a media monitoring station at IOF		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-15	Prepare to assist parishes with messages for possible evacuations		
		ESF-15	Coordinate with parishes on messages for public and media outlets		
		ESF-15	Update State partners of possible JIC activation		
		ESF-16	Prepare to Support Contra-flow		
		ESF-16	Activate Tactical Operations Center At GOHSEP		
		ESF-16	Alert LANG Shelter Security Force (215 PAX)		
		ESF-16	Alert Security Forces (825 PAX)		
3	H-90	ESF-8	In-State ambulance begin to arrive		
		ESF-8	EMS DRC's directing regional assignments		
3	H-84	ESF-6	LDOC activates Inmate Emergency Evacuation plan		
		ESF-6	Contact LA State Police to obtain most current list of Registered Sex Offenders from the Louisiana Bureau of Criminal Identification and Information		
		ESF-6	Union Pacific Terminal (UPT) support placed on stand-by		
				IMAT	Activate support plan for MSY Air Evacuation
		ESF-8	Alert Ambulance Staging areas		
		ESF-8	Alert LSU regarding bus triage		
		ESF-8	Alert FMS locations		
Governor's CIR: Any evacuation orders issued by local officials.					
3	H-80			DCO/DCE DoD	Request for proposal through USTRANSCOM
4	H-72			RA	Increase RRCC activation to <i>Level 2</i> (potentially Level 1 if situation dictates)
				IMAT	Deploy Parish Division Supervisors to IOF
				IMAT	Verify that MSY ICP and TSA Screening facility are fully operational to support GEN POP air evacuations
				IMAT	Ensure activation of IA-TAC for shelter support if required
				IMAT	Coordinate with ESF-3 to obtain status of quarter boats
				IMAT	Coordinate with ESF-6 to begin identification of sheltering options to include staffing and feeding capabilities and shortfalls
				IMAT	Decision to evacuate hospitals utilizing DoD assets must be made NLT H-72
				IMAT	Coordinate with ESF-8 to provide status of hospitals, nursing homes, FMSs, and pharmaceutical caches

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
				IMAT	Coordinate with ESF-9 to provide status of water rescue assets (DOI & USCG)
				IMAT	Coordinate with ESF-9 to pre-stage USAR if storm track and intensity warrant
				IMAT	Coordinate with ESF-10 to pre-position equipment and personnel for rapid response
				IMAT	Issue specific Regional mission assignments as appropriate. (on going)
				IMAT	Region 6 IMAT Planning provides Situation Awareness, IAP, and SITREP input to RRCC
				Admin	Build phone lists
				Admin	Deploy and in-process supplemental personnel
4	H-72	ESF-1	Submit Action Request Form (ARF) to FEMA requesting Air Evacuation assistance	ESF-1	On conference calls with RRCC, NRCC, DoD, contractors, etc; analyze current market availability of transportation assets for use in mass evacuation
		ESF-1	Pre-staging transportation assets continues	ESF-1	Request regulatory relief from DOT for all modes of transportation
		ESF-1	Stage school busses from DOE (if required) with or without LANG drivers	ESF-1	Deploy FAA Air Traffic support personnel to MSY ICP
<p>Governor's CIR: Local, State, Federal Declarations of Emergency in Louisiana or any adjacent Gulf Coast State. State and Federal Decision Makers Discuss: All applicable PSMAs to include deploying DCO/DCE, LNOs, and staff augmentation (DoD + USCG); evacuation order (voluntary, mandatory); Hospital decision-making regarding evacuation</p>					
4	H-72	ESF-2	Communications systems checks		
<p>Governor's CIR: Any loss or significant degradation of any communication system used by Emergency Management officials.</p>					
4	H-72	ESF-3	Setup to support contra-flow and provide situational awareness on evacuation routes		
		ESF-3	Activate contra flow and damage assessment plans		
		ESF-3	Staff HQ DOTD ESF 3 EOC		
		ESF-3	Staff HQ DOTD ESF 3 EOC		
		ESF-3	Contact and place all support agencies on alert		
		ESF-3	Staff LSP Traffic Control Center		
		ESF-3	Place Motorist Assistance Patrol (MAP) units on standby		
		ESF-3	In coordination with the ESF-3 lead agencies, LDEQ activates its Parish Liaison response teams		
		ESF-4	Activate SFM EOC	ESF-4	Stand up southern area Multiagency Coordination Group (MCG)

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
4	H-72	ESF-4	Activate responder "Base Camp" for EMAC incoming fire resources	ESF-4	Issue Forest Service closure orders to clear USFS Recreation Areas/Camp Grounds
		ESF-4	Activate and stage USAR assets	ESF-4	Execute movement of Agency aircraft out of harm's way
		ESF-4	Review EMAC request for Backfill	ESF-4	Alert and place on stand-by Type 1 IMT
4	H-72			ESF-4	Prepare Hurricane Cache Vans and 72 Hr Kits
4	H-72	ESF-5	State EOC At Level 2		
		ESF-5	Parishes Initiate Declarations Of Emergency		
		ESF-5	Unified Command Request FEMA IMAT Team (If not already in place)		
		ESF-5	Initiate Parish conference calls & begin discussion for evacuation		
		ESF-5	Notify ESF's of possible EOC support requirements		
		ESF-5	State Forward Coordination Center (SFCC) deploys to Zephyr Field		
		ESF-5	Deploy Host State LNO teams to appropriate states		
		ESF-5	Post Event Planning Cell is activated		
Governor's CIR: Any changes to manning level of the State EOC.					
4	H-72			IAG	Coordinate and deploy IA forward support to the state and assume the IA Branch Chief role from Mass Care
4	H-72	ESF-6	LDOC continues inmate emergency evacuation operations	IAG	Continue to refine and submit Task Orders for IA TAC (as needed)
		ESF-6	CTNS stand up operations (as needed)	IAG	Continue coordination with headquarters to activate IA-TAC as required
		ESF-6	MSNS stand up operations (as needed)	Mass Care	Coordinate with FEMA Logistics, for possible deployment of resources or CUSI Kits (commonly used shelter items) to support any potential State request
		ESF-6	SUP Stands up	Mass Care	Coordinate with State on tracking/registration and evacuation centers/shelters needs
		ESF-6	Provide staffing at triage sites	Mass Care	Review the State Feeding Plan; if no State Feeding Plan exists prepare to support feeding requirements with the creation of a Multi-Agency Feeding Task Force.
		ESF-6	Deploy Evacuation Registration Teams	Mass Care	Monitor evacuations and be prepared to support the State in the identification and opening of shelters, support any shortfalls/request submitted by the State
		ESF-6	ARC General Population shelters open	Mass Care	Continue to coordinate with the State to identify and support any shortfalls/support requested
		ESF-6	Activate DCFS LNO at MSY	MC HS Coord.	Coordinate with Host States to enhance communication and possible resource request

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-6	Activate Unaccompanied Minors shelter	Donations	Coordinate with State Donations Management section on support and requirements
				Housing	ESF #6 begins identification of short-term housing options
				Housing	Start to identify mid and long term housing options to support any housing needs
				VAL	Coordination with NRCC and Voluntary Agency Liaison (VAL) coordination cell.
		ESF-7	ULE fully manned at Level 1 (both GOHSEP and LANG) at OMV		
		ESF-7	Prepare to support limited commodity delivery missions with internal GOHSEP assets	IMAT Log	Coordinate with ESF-6 on any sheltering commodity shortfalls such as: (baby food/formula, diapers-adult and baby, comfort kits)
		ESF-7	Coordinate with ULE Finance for activation of commercial support contracts and ARF's (if Federal Declaration has been received)	IMAT Log	Coordinate with ESF-8 on any special needs sheltering and FMS shortfalls (oxygen cylinders, medical waste disposal)
4	H-72			IMAT Log	Coordinate with ESF-11 on pet evacuation shortfalls (pet transportation, cages, food)
				IMAT Log	Take necessary procurement actions to support pre-deployment
				IMAT Log	Coordinate with back-up region to deploy additional logistics and IT staffing
				IMAT Log	Take necessary procurement actions to support pre-deployment
				IMAT Log	Deploy additional Material Handling Equipment (MHE) if Cat 3 or above
				IMAT Log	MSY site set-up complete
				IMAT Log	Establish Resource visibility (Logistics Supply Chain Management System - LSCMS)
				IMAT Log	Verify that MSY ICP is fully operational
				RRCS	RSS activates DFW area hotels as Federal Air Ops Relocation Staging Area and provide pre-identified logistics support
		ESF-8	Possible Activation Of Medical Special Needs Shelters	ESF-8	Ensure proper positioning of NDMS resources to support patient evacuation. Ensure proper positioning of shelter support resources
		ESF-8	Establish Hospital Bed-Census Baseline Status	ESF-8	Conduct follow up LA MIEP conference call
		ESF-8	Ensure All Nursing Homes & Other Custodial Care Organizations In The Risk Areas Are Prepared To Evacuate Their Residents		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
4	H-72	ESF-8	DHH Notifies GOHSEP/ FEMA Of Possible Evacuation Of Medical Facilities		
		ESF-8	Possible Activation of OPH Operation and Support vehicle evacuation to Bluebonnet office		
		ESF-8	Possible Activation of Ambulance Staging areas		
		ESF-8	Possible Deployment of Ambulances and buses to staging areas		
		ESF-8	Alert staff for bus triage		
		ESF-8	Begin setup of Medical Special Needs Shelter and Federal Medical Station	ESF-8	Evaluate need for Federal MSNS support and request if needed. Begin setup of FMS.
		ESF-8	Activate telephone triage lines		
		ESF-8	Activate Bus Triage MOA		
		ESF-9	Stand up staging locations for SAR teams		
		ESF-9	Alert LDWF A-Team, USAR Resources, La Sheriff's Association Volunteer SAR Teams and LDAF-ASAR Teams		
		ESF-9	Begin final inventory of LDWF SAR Resources		
		ESF-10	Notify HAZMAT In Area To Be Removed / Secured (Potential Impact On Transportation Infrastructure For Evacuation)		
		ESF-10	LEDQ notifies radiological source licenses in potential impact area to remove or secure their resources		
		ESF-11	Continue LDOC Pet transportation and sheltering operations:	ESF-11	Deploy personnel to support the FEMA IMAT in Louisiana as needed, including 3 USDA APHIS Animal Care Technical Specialists to assist LDAF IC during evacuations.
		ESF-11	Request deployment of USDA Technical Support assets.	ESF-11	Schedule credentialing, work assignments, and other tasks with LDAF for the 3 USDA APHIS Animal Care technical specialists to support LDAF IC at CTN PPP's.
		ESF-11	Transportation/Fuel assets arrive at staging areas. Emergency fuel operations continue.		
		ESF-11	CTN Pet shelters are manned by LDAF Shelter IMT.		
		ESF-11	Request NGO assistance and deployment at CTN Pet shelters to support LDAF.		
		ESF-11	Continue to review, monitor, coordinate, and respond to the state's Agriculture, Food Safety, Pet Transportation and Sheltering emergency needs with local, state and federal partners.		
		ESF-11	Donation Management Team Activates		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE			
	ESF-11	Official activation request for Animal Search and Rescue(ASAR) resources	
	ESF-12	Make contact with Federal NRC	
	ESF-12	Make contact with River Bend and Waterford 3	
	ESF-13	Stage assets for Set-up of Contra-Flow & provide situational awareness on evacuation	
	ESF-13	Support for evacuation of prison population	
	ESF-13	Continue coordination efforts with local, State & Federal Officials & Emergency Managers	
	ESF-13	Finalize scheduling of personnel to support evacuations	
	ESF-13	Coordinate with ESF's & local / State Officials on evacuation plans & sheltering	
	ESF-13	Initiate Public Information Campaign encouraging early evacuations	
	ESF-13	Activate ESF-13 (LSP) EOC to include: Traffic Control Center; Joint Operations Center; and Information Call Center	
	ESF-15	Coordinate the state's message with State and Federal agencies	ESF-15
	ESF-15	Continue coordination with news media contacts to disseminate public information On: Shelters; evacuation; EAS message; and Reverse 911 Scripts	ESF-15
	ESF-15	Provide up-to-date information to media as it becomes available	ESF-15
	ESF-15	Monitor media to ensure state messages are being received and released by press and accuracy of press information	ESF-15
	ESF-15	Continue to assist parishes with messages for possible evacuations	
	ESF-15	Coordinate with parishes on messages for public & media outlets	
	ESF-15	JIC opens	
	ESF-16	Alert Contra-Flow Forces (120 PAX)	
	ESF-16	Support Setup Of Special Needs Shelters	
	ESF-16	Support To ESF-5 (GOHSEP)	
	ESF-6	Parish Pickup Point (PPP) teams operational	
	ESF-8	DMAT's at Special Needs Shelters if requested by State (LDHH)	IMAT
			Verify State's decision to evacuate general population utilizing DoD assets

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
4	H-66	ESF-8	Possible activation of AMP locations (continued readiness of personnel and resource supports for AMPs)		
		ESF-8	Activate Bus Triage staff		
4	H-60			IMAT	Task ESF-1 to coordinate air space management
4	H-60	ESF-3	Verify progress of 72 hour contra flow staging		
		ESF-3	Obtain status of Transportation Infrastructure airports, marine, railway and roadway		
		ESF-6	CTNS stand up operations	RRCS	Logistics staff and support personnel deploy to DFW Airport General Aviation for Bus coordination and Hotel for arrival and check in support
		ESF-6	MSNS stand up operations		
		ESF-6	DCFS staff and LNO's deployed		
		ESF-6	Registration process initiated		
		ESF-8	Open pre-designated MSNS upon verification of parish evacuation orders	ESF-8	Confirm that all FCCs activated are operational
		ESF-8	Dispatch Ambulances to pre-designated locations upon verification of Parish Assisted Evacuation Plans being executed	ESF-8	Ensure proper positioning of NDMS resources to support patient evacuation. Ensure proper positioning of shelter support resources
		ESF-8	Credential Volunteers	ESF-8 / FEMA	Prepare to receive first patients at AMPs
		ESF-8	Bus triage site activated		
		ESF-8	Coordinate with DCFS and DOTD to begin LSU bus triage		
		ESF-8	MSNS and FMS fully operational		
		ESF-11	LDAF CTN Pet Shelters are operational and ready to receive pets.	ESF-11	USDA APHIS Technical Specialists arrive and integrate into ICS structure at the three CTN PPP's and begin executing pre-designated work assignments to monitor the handling and physical condition of pets during the evacuation process.
		ESF-11	LDAF PPP Liaison and USDA Animal Care TSP's are assigned and report to Orleans and Jefferson parish PPP's.	ESF-11	Coordinate with LDAF IC for additional USDA support and deploy additional technical support as needed and requested via MA Task Orders with FEMA.
ESF-11	Fuel tankers deployed to TSAs Secondary fueling points operational.				
ESF-11	Coordinate with DCFS and DOTD on CTN pet transportation at PPP. Pet transport trucks and vans dispatched to PPP. (Status reports every 4 hours with DCFS report)				

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-16	LANG to provide Bus Drivers (as required/needed) to State ESF-1		
4	H-58			ESF-8 / FEMA	Verify that aero-medical evacuation aircraft have arrived at AMPs
4	H-56			ESF-8 / FEMA	Begin NDMS patient evacuation; First aircraft (DoD & AMR) departs AMPs for designated FCCs
4	H-54	ESF-1	Assisted Transportation Operations Begin (movement of State and Federal transportation resources)	ESF-1	Begin air space management measures
		ESF-5	Make contact with Host State LNO teams to validate communications		
		ESF-6	SUP stand up operations		
		ESF-6	Parish Collection Point (PCP) operations begin		
4	H-50	ESF-3	Coordinate with neighboring states on Contra-Flow plans		
		ESF-3	Provide Status Report on evacuation routes		
		ESF-3	Continue Preparation For Contra-Flow To Start At H-30 and provide situational awareness on evacuation routes		
		ESF-3	Implement waterways/bridge emergency plan		
		ESF-5	EOC At Level II Or Level I Depending On Threat, Notify Agencies Of EOC Activation Level With Date & Time		
		ESF-5	Phase 1 Evacuation begins		
		ESF-5	Continue Receipt Of Parish Declarations Of Emergency		
		ESF-5	Maintain Parish EOC Activation Status Report From Risk Parishes		
		ESF-5	Continue Conference Calls Based On Threat		
		ESF-5	In Conjunction With ESF-2 & 15, Activate EAS System To Disseminate Hurricane Advisories & Evacuation & Shelter Information		
Governor's CIR: Any major issues raised by Parish Presidents or Mayors in potential affected areas. State and Federal Decision Makers Discuss: All applicable PSMAs to include deploying Communications Augmentation Teams (Up to 13) (DoD and USCG); Deploying Contingency Response Group (CRG) (DoD)					
		ESF-6	Support Phase 1 evacuation		
		ESF-6	Coordinate with transportation ESF-1		
			Shelter Status Reporting		
		ESF-6	Receive requested resources to support sheltering		
		ESF-6	Initiate registration and tracking		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
4	H-50	ESF-6	Coordinate with neighboring states - Advise states of the possible extent of Louisiana's evacuation & sheltering		
		ESF-6	Continue setup & operation of Special Needs Shelters		
		ESF-6	Alert Shelter Task Force to prepare to host evacuees		
		ESF-6	Department of Corrections continues with evacuation of prison population		
		ESF-6	Initiate manifesting at Parish Pickup Points		
		ESF-6	211 information checkpoint manual		
		ESF-8	Continue to support Medical Special Needs Shelters		
		ESF-8	Continuing to monitor bed census		
		ESF-8	Ensure All Nursing Homes & other custodial care organizations in the risk areas are evacuating their residents / prepared to Shelter In Place (SIP)		
		ESF-10	Verify HAZMAT in area to be removed/secured		
		ESF-10	LDEQ verifies radiological sources removed or secured		
		ESF-11	Pet transports are loading and begin to travel to CTN Pet shelter destinations as registration progresses	ESF-11	ESF-11 lead in Louisiana with FEMA IMAT will attend LDAF Command and General Staff meetings as needed to maintain real-time situational awareness.
		ESF-11	NGO's are onsite to assist LDAF CTN Pet shelter IMT's.		
		ESF-11	LDAF CTN Pet registration in progress at CTN Pet shelters.		
		ESF-11	Emergency fuel operations assist phased evacuation operations.		
		ESF-13	Begin Set-up of Contra-Flow & provides situational awareness on evacuation		
		ESF-13	Proceed with Support to evacuation of Prison Population		
		ESF-13	Continue coordination efforts with local, State & Federal officials & Emergency Managers		
		ESF-13	Coordinates with ESF's & local / State officials on evacuation plans & sheltering		
		ESF-13	Initiate Public Information Campaign encouraging early evacuations		
ESF-13	Begin evacuation of Phase I area, South of Intra-coastal Waterway with no route restrictions imposed				

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-13	Request closure of public offices / schools in risk and impact areas		
		ESF-13	Begin coordination with Mississippi officials on evacuation protocols & keep neighboring states informed of status & traffic control decisions		
		ESF-13	Begin evacuation of Special Needs citizens from vulnerable areas		
		ESF-13	Report Evacuation Route Status To EOC		
		ESF-13	DPS Activate Security Support For EOC		
		ESF-16	Execute Anti-Looting Plan		
		ESF-16	Execute Contra-Flow Support Plan		
		ESF-16	Aviation assets to assist medical trauma patients in Orleans Parish		
5	H-48			RA	Transition RRCC activation to Level 1 (If not already at Level 1) with all ESFs as needed
				FCO/SCO	Ensure health and safety of personnel are being accomplished
				IMAT	Monitor onset of tropical storm force winds to determine time to cease pre-landfall actions
				IMAT	Monitor and assist in evacuation process (All evacuation)
				IMAT	Task ESF-2 to test communication infrastructure
				IMAT	Coordinate with ESF-3 to provide status of levees and flood control
				IMAT	Coordinate with ESF-11 to coordinate shipments of USDA foods to local food banks within the impact area
				IMAT	Coordinate with ESF-12 to advise of trigger point to shutdown nuclear power plant in impact area
				IMAT	Review HURREVAC, SLOSH Display and SLOSH Operational runs as they become available
				IMAT	Prepare jurisdictional profiles
				IMAT	Collect data on potential damage/debris/hazards
				IMAT	Develop IMAT and JFO staffing augmentation plans
		IMAT/DoD	Verify first aircraft have departed MSY with CTNs evacuating to designated Host States		
		ESF-1	Continue Assisted Transportation Operations		
		ESF-3	Damage Assessment Coordinator conducts "initial" pre-deployment briefing to Damage Assessment Teams		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
5	H-48	ESF-3	In coordination with the ESF-3 lead agencies, LDEQ communicates with landfills for debris collection readiness and initiates an Emergency Declaration/Administrative Order		
		ESF-4	Activate "Safe Haven" at Ferrara Fire for coastal responders		
		ESF-4	Issue Statewide ban on burning if warranted		
		ESF-4	Request EMAC backfill for firefighters		
		ESF-6	Ongoing CTNS operations	IAG	Continue to coordinate with Host States to enhance communication and possible resource request.
		ESF-6	Ongoing SUP operations	IAG	Coordinate with Federal ESF-11 to support any State request for sheltering and evacuating house hold pets, and any USDA commodities request
		ESF-6	Continue Registration/Tracking	MC HS Coord.	Participate in daily interagency, National VOAD and State VOAD conference calls for information sharing and coordination support
		ESF-6	Needs Assessment	Mass Care	Obtain flood insurance and sanctioned community information for PDA
5	H-48			Mass Care	Obtain from the State congregate care facility information, including location, current population, facility type and capacity data
				Mass Care	Coordinate with ESF #11 to support State evacuation shelters and household pets shelters
				Mass Care	Coordinate with ESF #11 for shipments of USDA commodities to food banks. (if requested)
				Mass Care	Coordinate with the State to identify MC/EA information needed for Sitrep Input (sheltering and feeding)
				VAL	VAL represents FEMA on daily interagency and National VOAD conference calls for information sharing and coordination. Participate in State VOAD conference calls
5	H-48	ESF-7	Verify delivery of equipment for POD & RSA equipment, FEMA push-packages (MHE, traffic control equipment, etc.) IOT have PODs & RSA operational NLT H+24	IMAT Log	Analyze inventory status
		ESF-7	ULE EOC fully staffed and operational	IMAT Log	Deploy assets from pre-incident locations to operating location
		ESF-7	Continue limited commodity delivery missions with internal GOHSEP assets	IMAT Log	Assure availability and protection of transportation assets
				IMAT Log	Ensure pre-deployed assets are in place 24 hours prior to tropical storm force winds reaching coastline

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
5	H-40	ESF-8	Re-evaluate all operations and make appropriate adjustments		
		ESF-9	Assign staff to GOHSEP		
		ESF-10	LDEQ activates its Incident Command and initiates its Incident Action Plan for operations		
		ESF-11	Continue to coordinate and respond to State and local request for ESF 11 emergency resources.	ESF-11	Continue supporting LDAF
		ESF-12	Determine trigger point for nuclear facilities shutdown if applicable		
5	H-48			ESF-15	Deploy Congressional Liaison Officer (CLO) support team
5	H-40	ESF-1	Continue Assisted Transportation Operations		
		ESF-3	Provide evacuation information to ESF-15 in order to provide to the public		
		ESF-3	Continue to coordinate with neighboring states		
		ESF-3	Continue preparation for Contra-Flow to start at H-30 & provide situational awareness on traffic and evacuation routes		
		ESF-3	Mobilize State Contra-Flow traffic control active & passive resources		
		ESF-5	State EOC at Level II or Level I depending on threat		
		ESF-5	Phase 2 evacuation begins		
		ESF-5	Continue receipt of Parish Declarations of Emergency		
		ESF-5	Maintain Parish EOC activation status report from risk Parishes		
		ESF-5	Continue conference calls based on threat		
		ESF-5	In conjunction with ESF-2 & 15, continue to use EAS system to disseminate hurricane advisories, evacuation & shelter information		
		ESF-6	Support Phase 2 evacuation		
		ESF-6	Continue registration, tracking, reporting		
		ESF-6	Coordinate with ESF-8 for medical transportation & medical services		
		ESF-6	Coordinate with neighboring states - Advise states of the possible extent of Louisiana's evacuation & sheltering		
ESF-6	Continue operation of Special Needs Shelters, open additional as required				
ESF-8	Continue to Support Medical Special Needs Shelters				
ESF-8	Continue to monitor Bed Census				

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-8	Monitor the evacuation & shelter of persons having mobility limitations, including persons in Nursing Homes, Hospitals, Group Homes & Non-institutionalized persons		
		ESF-13	Continue set-up of Contra-Flow & provide situational awareness on evacuation		
		ESF-13	Continue to Support The Evacuation Of Prison Population		
		ESF-13	Continue coordination efforts with local, State & Federal officials & Emergency Managers		
		ESF-13	Coordinate with ESF's & local / State officials on evacuation plans & sheltering		
		ESF-13	Continue Public Information Campaign encouraging early evacuations		
		ESF-13	Begin evacuation of Phase II area West of Mississippi River including West Bank areas of Orleans & Jefferson Parishes		
		ESF-13	Monitor / Manage traffic along evacuation routes & other effected roadways		
		ESF-13	Mobilize State evacuation traffic control, active & passive resources & people		
		ESF-15	Provide up-to-date information to media as it becomes available		
		ESF-16	LANG Security prepare to execute anti-looting plan		
		ESF-16	Prepare to execute Contra-Flow Support Plan		
5	H-36	ESF-6	Stand down evacuations site operations		
		ESF-6	Shelter Task Force activated to set-up shelter information points		
		ESF-6	Activate 1-866-GET-INFO and 211		
			Contraflow begins		
		ESF-1	State Assisted Evacuation Operations winding down		
		ESF-1	Staging Areas begin to shut down		
		ESF-3	Implement mandatory evacuation traffic controls		
		ESF-3	Convert specified limited access routes to one way outbound operations		
		ESF-3	Control main evacuation routes with state resources		
		ESF-3	Coordinate with USCG on closing moveable bridges		
ESF-3	MAPP Operations begin 24/7 operations (if resources are available)				

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
5	H-30	ESF-5	Transportation/Evacuation Branch monitors execution of Contra-Flow plan		
		ESF-5	Continue to maintain contact with risk Parishes as well as Shelter Task Force via conference calls		
		ESF-6	Support Phase 3 evacuation, Contra-Flow		
		ESF-6	Perform needs assessment for additional support staff, inventory & supplies		
		ESF-6	Continue registration, tracking & reporting		
		ESF-6	LDOC winds down inmate emergency evacuation operations		
		ESF-8	Continue to monitor bed census		
		ESF-8	Continue to monitor the evacuation & shelter of persons having mobility limitations, including persons in nursing homes, hospitals, group homes & non-institutionalized persons		
		ESF-11	Continue to coordinate response efforts with NGO's, local, State & Federal Officials & Emergency Managers	ESF-11	Coordinate with LDAF regarding the 3 USDA APHIS Animal Care Technical Specialists and their potential relocation to the 3 CTN pet shelters. Otherwise, these 3 TSP's will move inland to safe locations at H-30.
		ESF-11	CTN Pet Shelter operations continue.		
		ESF-11	Request USDA TSP to relocate to the CTN Pet Shelters to monitor the safety and well-being of pets.		
		ESF-13	Continue coordination efforts with local, State & Federal Officials & Emergency Managers		
		ESF-13	Begin Evacuation Of Phase III Area; East Bank areas of Orleans & Jefferson Parishes; All other vulnerable areas between I-12 & the Mississippi River		
		ESF-13	Monitor / Manage traffic along evacuation routes & other effected roadways		
		ESF-13	Monitor Contra-Flow & make necessary modifications to maximize effectiveness & efficiency		
		ESF-16	LANG Security execute Anti-Looting plan		
ESF-16	Execute Contra-Flow Support Plan				
			IMAT	Maintain contact and verify status of deployed teams in the potentially impacted area(s)	
			IMAT/ ESF-8	Coordinate with ESF-8 for staging of DMAT teams in DFW area	

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
6	H-24			IMAT	Task NGA (GEOINT) field staff at IOFs to develop USAR map templates, search grids, and other preparation and deployment products, if activated
				IMAT	Maintain communications with all external entities
				MSY ICP	DECISION POINT: Continue Air Evacuation Operations
6	H-24	ESF-6	Ongoing CTNS operations	IAG/BC	Advise all staff to prepare and take emergency protective measures, including sheltering in place or evacuating
		ESF-6	Ongoing MSNS operations		
		ESF-6	Ongoing SUP operations		
		ESF-6	Registration ends at PPP's; Staff redeploys		
		ESF-7	Continue coordination with FEMA logistics for disposition of any commodities still available IOT move them pre-storm NLT H 20	IMAT	Implement personnel protection plan and secure all assets that may be in harm's way
6	H-24			RRCS	Ensure DFW area hotels are ready to receive first responders from MSY
				RRCS	Evaluate need for a personnel mobilization center in the DFW area.
6	H-24	ESF-8	Demobilize bus triage	ESF-8	Monitor evacuation and prepare for sheltering of resources
		ESF-9	Activate and stage A- Teams in Woodworth and Baton Rouge		
		ESF-9	Activate State US & R teams		
		ESF-11	Monitor the movement of Livestock.	ESF-11	Verify that USDA APHIS Animal Care personnel have moved to safe locations.
		ESF-11	CTN Pet Shelter operations continue.		
		ESF-11	Prepare to conduct Agriculture and Food Safety damage assessments. Damage assessment teams staged for activation and deployment status reports.		
		ESF-11	ASAR teams report for credentialing, staging and preparations for deployment		
6	H-20	ESF-3	ESF 3 & 13 alerts risk Parishes & State Traffic Control Posts the time Contra-Flow routes will cease operations		
		ESF-5	Unified Command/Ops Staff consult with ESF 1, 3 & 13 to close evacuation routes	MSY ICP	Last CTN buses arrive at MSY from PPPs
		ESF-5	Unified Command coordinates with Parishes for opening of "Last Resort Refuge Buildings" to people still in risk areas		

State and Federal Decision Makers Discuss: All applicable and appropriate Post-landfall PSMA's to enable immediate response following storm passage to include; Deploy SAR and MEDEVAC rotary wing assets (DoD & USCG); deploy medium (DoD & USCG)/heavy rotary wing lift assets (DoD)

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
6	H-20	ESF-6	Registration/Tracking/Reporting		
		ESF-8	Prepare staff and equipment for sheltering		
		ESF-8	Continue to coordinate medical support		
		ESF-8	Notify SAR of potential SMART locations		
		ESF-9	Plans finalized for SMART SAR		
		ESF-10	ID HAZMAT left in area		
		ESF-10	ID radiological sources left in place		
State and Federal Decision Makers Discuss: All applicable Post-landfall PSMA's to enable immediate response to include: Deploy voice/data communications capability assessment/augmentation team (DoD & USCG); Deploy route clearance assets (DoD & USCG)					
6	H-20	ESF-11	Continue to monitor fuel availability with vendors		
		ESF-13	Alert risk Parishes & State Traffic Control Posts of the time that Contra-Flow routes will be closed		
		ESF-13	Continue to monitor Contra-Flow for effectiveness		
		ESF-13	Restrict Traffic Movement On Vulnerable Highways		
		ESF-13	Secure Assets		
		ESF-13	Prepare For Re-Entry		
State and Federal Decision Makers Discuss: Be prepared to execute Post-landfall PSMA's to enable immediate response; deploy/establish temporary medical treatment facilities (DoD)					
6	H-20	ESF-14	Prepare For Damage Assessment & Post Disaster Response & Recovery Activities		
		ESF-14	Request ESF- 1, 2, 3, 6, 8, 12, & 13 be prepared to report on Food, Water, Electric, Telephone, Shelter, Road & Special Needs Status as early as possible after storm makes landfall		
		ESF-16	LANG Security continues to execute Anti-Looting Plan		
		ESF-16	Execute Sheltering Plan		
State and Federal Decision Makers Discuss: Based upon anticipated storm strength, impact, location, and effects. Discuss with USNORTHCOM options to deploy Non-PSMA DoD Force Packages: FP1/2/3/4					
6	H-18			MSY ICP	General Population evacuations completed and support personnel begin evacuation from APOEs to DFW area
				MSY ICP	Air transport of CTN evacuees complete
				MSY ICP	Begin air evacuation of support personnel (TSA, FAMS, etc.) to safe haven in DFW area. (H-18 to H-12 is the timeline for extraction)
				IMAT	Evacuate non-essential Logistics staff and secure assets at Screening Facility

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
6	H-18	ESF-8	Medical Institution Evacuation Plan (MIEP) Conference call held to determine how many patients are still requiring evacuation and ID when operations will shut down in anticipation of tropical force winds coming ashore.		
6	H-12			IMAT /DoD	Verify Support Personnel evacuation from APOEs to DFW area are complete and all personnel are accounted for
				IMAT	Request DCO to initiate survey for return air transportation for support personnel
6	H-12	ESF-1	Begin Demobilization of Pre-Storm VSA(s)	ESF-1	Coordinate with NOAB for shut down and closure of MSY
		ESF-5	State Forward Coordination Center (SFCC) re-deploys from Zephyr Field		
		ESF-8	Recall Ambulances to areas of safety (i.e.. Base camps/staging areas) to shelter from the storm	ESF-8	Demobilize evacuation resources and prepare for landfall.
		ESF-8	Planning for Post-storm needs initiated		
		ESF-8	AMP's initiate demobilization procedures and conduct a close out report via phone to the DRC and State ESF 8		
		ESF-9	Final check of all LDWF and State US & R resources		
6	H-6	ESF-13	Discontinue Contra-Flow	ESF-13	All ESF-13 assets should be located at pre-established locations to shelter-in-place until danger passes
H-HOUR - Tropical Storm Force Winds on the coast of Louisiana					
7	H-Hr			IMAT	Verify personnel accountability of response resources
				FCO	Phase in additional staffing for JFO
				FCO/SCO	Initiate FEMA/State agreement
				FCO/SCO	Start preliminary damage assessments
				IMAT	Issue post-declaration mission assignments as appropriate
				IMAT	Transition operations from IOF to the JFO once established
				IMAT	Task ESF-9 to execute Urban Search and Rescue if needed
				IMAT	Task ESF-3 to install generators for critical infrastructure if requested by the state
				IMAT	Coordinate with State regarding access/egress issues to incident site and need for special access badges
				IMAT	Continue resource flow for unmet needs
		IMAT	Conduct Remote Sensing Analysis as necessary		

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
				IMAT	Logistics coordinate with state on DRC and POD locations, also coordinate with Recovery/IA on MDRC requirements
7	H-Hr	ESF-6	Prepare for SAR operations		
7	H+12	ESF-1	Stand ready to assist Search and Rescue if needed	ESF-1	Assessment of airfield at MSY
		ESF-1	Prepare for re-entry		
7	H+12			ESF-2	Provide operable and interoperable communications for command and control
				ESF-2	Begin damage assessments
				ESF-2	Provide temporary mitigation of infrastructure outages
				ESF-2	Provide operable and interoperable communications for SAR
7	H+12			ESF-2	Provide operable and interoperable communications to the evacuation and sheltering missions
		ESF-3	Begin damage assessment		
		ESF-3	Commence debris clearance for accessible areas		
		ESF-5	Resume Task Force conference call as soon as possible to gain local intelligence		
		ESF-6	Ongoing CTNS operations	ESF-6	Identify immediate post landfall shelter locations and coordinate with USAR for rescued evacuees
		ESF-6	Ongoing MSNS operations	ESF-6	Confirm Post-storm shelter locations with Parish Emergency Management for utilization
		ESF-6	Ongoing SUP operations		
		ESF-6	Prepare for Disaster Supplemental Nutrition Assistance Program (DSNAP) operations		
		ESF-8	Support rescue operations post-storm (SARBOO)		
		ESF-8	Environmental Health response		
		ESF-9	Execute SMART SAR operations		
		ESF-11	Deploy animal ASAR teams per request to support LDWF and LANG SAR		
ESF-11	Coordinate pet identification and transportation with LDWF and LANG SAR operations				
ESF-11	LDWF Emergency fuel operations continue				
7	H+24	ESF-4	Coordinate firefighting assets (if required)		
		ESF-5	Conduct Task Force conference calls twice daily for SAR and recovery information		
		ESF-6	Stand by staffing contractor	IAG	Support States request to conduct PDAs
		ESF-6	Case Management deployed	IAG	Report available housing (rental & hotel) not damaged to HQ in coordination with the State
		ESF-6	VOAD deployed	IAG	Establish and staff IA personnel for JFO and DRC's

The H-Hour Timeline is intended to serve as a coordination tool for multiple organizations. The scope, scale and threat of the storm will influence decisions outlined on the timeline.

LOUISIANA STATE / FEDERAL H-HOUR TIMELINE					
		ESF-6	LFRC deployed	Mass Care	Monitor closing of host-state shelters and consolidation and closing of Shelters until the MC/EA group is established at the JFO
